SteriFast™ is a reliable and gentle hand disinfectant with a very good residual and persistent effect.

**Ingredients:**

Each 100 gms contains:
- 2-Propanol : 45 gms,
- 1-Propanol : 30 gms,
- Ethyl hexadecyl-dimethyl Ammonium-ethylsulphate : 0.2 gms
  (Mecetronium Ethyl Sulphate)
and Skin protecting substances.

**Mode of action:**

SteriFast™ possesses remarkable residual and persistent effect. The formulation permits penetration in the skin. It forms a defensive barrier against microorganisms which rise to the surface of the skin with sweat. The number of microorganisms on the hands in the surgical gloves therefore remains low for several hours.

Even at a very low concentration Sterifast™ ensures a rapid and reliable reduction in the bacterial count, with a dependable kill of the microorganisms making it an effective hand disinfectant.

SteriFast™ is a very gentle yet a reliable disinfectant with exceptionally good skin tolerability even with long term use. It provides excellent skin protection and skin care properties.

**Direction for Use:**

1. For Hygienic hand disinfection : Rub Sterifast™ (two pushes of Calibrated dispenser pump i.e. 3 ml) on the clean dry hands, nails and grooves for 30 secs.
2. Surgical Hand Disinfection : Rub Sterifast™ (6 pushes i.e.9 ml of the dispenser pump) over clean dry hands, nails, grooves up to elbow. Rub vigorously for 3 minutes.
SteriFast™

Salient features:

- Reliable & Gentle
- Excellent skin protection
- Effective for several hours
- Hand disinfection without water.
