Laboratory Deodorizing Pearls

LA008A & LA008B

Pleasant smelling deodorizers for masking the oppressive odours during autoclaving of exposed plates, bacterial growth and contaminated material.

These Deodorizers will remove unwanted odors from your facility by deodorizing techniques in autoclaves, incubators, refrigerators, and similar closed apparatus where tissue culture ware may be used or stored.

**Application**: Microbiology laboratory, Molecular biology laboratory, Chemical laboratory, Plant Tissue culture work and various other laboratories.

**Direction**: Drop one or two pearls or as required, inside steam autoclave.
