HiVeg™ Hydrolysate C

It is recommended to be used for cell culture media. It can also be used in the production of various general media where it can be substituted for Casein enzymic hydrolysate, such as Tryptone Water, MIO Medium, MIL Medium etc. It is also used in the production of Sterility Testing Media and various Diagnostic Media.

**Principle And Interpretation**

HiVeg™ Hydrolysate, C is very rich source of amino nitrogen and proteins owing to amino acids content obtained from vegetable proteins. Its growth performance is at par with Casein Enzyme Hydrolysate, extracted from plant, recommended for use in cell culture.

**Quality Control**

**Appearance**
Light yellow to yellow, may have a slight green tinge Homogenous Free flowing powder, having Characteristic odour of protein, derived from vegetable source.

**Solubility**
Freely soluble in distilled/purified water, insoluble in alcohol.

**Reaction**
Reaction of 2% w/v aqueous solution at 25°C.

**pH**
5.50-7.50

**Microbial Load:**

**Total aerobic microbial count (cfu/gm)**
By plate method when incubated at 30-35°C for not less than 3 days.

**Bacterial Count** : <= 2000 CFU/gram

**Total Yeast and mould count (cfu/gm)**
By plate method when incubated at 20-25°C for not less than 5 days.

**Yeast & mould Count** : <= 100 CFU/gram

**Test for Pathogens**
1. E.coli- Negative in 10 gms of sample
2. Salmonella species- Negative in 10 gms of sample
3. Pseudomonas aeruginosa- Negative in 10 gms of sample
4. Staphylococcus aureus- Negative in 10 gms of sample
5. C.albicans- Negative in 10 gms of sample
6. Clostridia- Negative in 10 gms of sample

**Cultural response**
Cultural response observed after incubation at 35 - 37°C for 18-48 hours by preparing HiVeg Soyabeen Casein Digest Medium (MV011), using HiVeg Hydrolysate C as an ingredient.

**Endotoxin level**
Passes

**Cell Culture Tested**
Passes

**Cultural Response**

**Chemical Analysis**

- Total Nitrogen \( \geq 12.0\% \)
- Amino Nitrogen \( \geq 3.50\% \)
- Sodium chloride \( \leq 5.0\% \)
- Loss on drying \( \leq 7.0\% \)
- Residue on ignition \( \leq 12.0\% \)

**Storage and Shelf Life**

Store below 30°C. Use before expiry date on the label.
